DEAR EDITOR....

Coates, Councilmen And Mental Health

Editor
Torrance Press
This is addressed to our city fathers.

Hah, hah, hah, Paul Coates sure let you have it in his column May 24.

I don't think you're as stupid though as he claims you are—you get a lot of good bad publicity which is more than some councils get.

Here's to mental health and the city council of Torrance.

Voters To Be Notified Now

Editor,
Torrance Press:
Thank you for your excellent suggestion for mailing notices of polling places to all registered voters at future school

elections. The idea is sound, and it would only have cost the school district 5 1/2 per voters, or \$1,210.00 more.

The members of the Board of Education had expected such notices to be mailed out by the Registrar of Voters, as he did for the last bond election. It turned out that it is only automatic for bond elections and it has to be requested by the Board for other regular elections. It was too late to get the mailing accomplished when the Board became aware that the new law did not cover School Board elections.

Another new situation pertaining to School Board elections that might be worth passing on is that they are operated by the County Superintendent's office, due to certain legal difficulties which have encountered in certain instances where elections had to be repeated in some school districts following bond elections which had overlooked some minor technicality, which voided the election. This brings the County Counsel into supervision of election procedures through the County Superintendent's office. The new education code section number covering this point is 4625.

Yours very truly,
(s) J. H. HULL
Superintendent of Schools

Should Pay for Pool Admission

Editor
Torrance Press
I would like to answer the let-

ter of Mrs. Al Klaman, of 22830 Ward street about "Shouldn't have to pay for pool."

Mrs. Klaman, I am not a resident of Torrance but so close that I pay taxes in Torrance with my shopping.

Why shouldn't you pay admission for the conveniences of a public pool? You say that you have five (5) children using it, I, and thousands of other people, who helped pay for that pool in taxes, have no children to use it and I may never see it.

Yet, we are willing to pay those taxes for your convenience. The rates I am not in a position to estimate. They seem rather high.

However, what do you get for the time—a life guard during the time your child is in the pool; the water, sterilized and changed, costs something; and a teacher to train your child how to conduct himself in the water and save his, or someone else's, life. It also costs something to maintain the pool.

Don't you think if we don't object to paying our whack for something for which we get no personal benefits, that you should not object to taking care of the upkeep?

We all paid for municipal water and power conducted to our doors and still pay for its use. No one objects. Do you? You pay for what you use—either water, power or pool.

Sincerely yours,
(s) B. KENNETH GIBSON

Save the Children

Editor
Torrance Press

Many of us have felt a pang of regret when we found ourselves unable to spare funds to help a worthy cause.

Yet there is one cause—the cause of needy children and their families—to which we can give real assistance without having to go any farther than our own clothes closets. Thousands of youngsters in our own United States and overseas are desperately in need of good, used clothing. Possessing little more than a few tattered garments, many boys and girls are unable even to attend school.

The Save the Children Federation, of which I have the honor to be a National Sponsor and a Board Member, is appealing for clean washable clothing to help needy children and adults. Your readers can render a wonderful service by sending such clothing to:

Save the Children Federation, Dept. N
Ault Road and Rutledge Pike
Knoxville, Tennessee

The cool autumn and bitter winter months may seem a long way off. But by sending clothing now, your readers can be sure that coats, shoes, jackets and dresses will be available to provide warm protection for needy boys and girls when bad weather sets in.

Sincerely yours,
(s) Faith Baldwin

The real cure is compulsory church attendance. The delinquents should be sentenced to church regularly for varying periods of time (depending on the nature of the offense they have committed).

They will learn to see the error of their ways and they will substitute religion for delinquency.

Big Business—Curse or Blessing

Editor
Torrance Press

Most small businessmen I've ever talked to complain about

the threat of big business gobbling up the small businessman more and more.

Is this really true? I wonder if there are any small businessmen who believe that big business is good—and why. I still have an open mind.

How to Avoid ON THE JOB Eyestrain!

What's the visual range of your job? From close-up to 30 inches? From reading range to beyond arm's length? If you wear glasses, it is imperative that visual corrections precisely match your working pattern! Otherwise, eyestrain and loss of efficiency are inevitable.

THERE'S A NEW APPROACH to this problem—a solution that will help you feel better and work better! Let us make a "working area analysis" of YOUR job. From this data lenses can be ground in our own laboratories to provide exactly the corrections you need. Come in; let us demonstrate. No obligation.
